BUILDING BETTER ENVIRONMENTS WITH PRICE:

Price Technical Centers are designed to give you the knowledge and insight to build better environments by providing an exceptional educational and informational experience about Price products & services, air distribution strategies and the industry at large.

Gain a superior level of understanding of conventional, leading edge and sustainable air distribution strategies.

Flow visualization rooms use smoke patterns to demonstrate an array of air diffusion products and technologies in action.

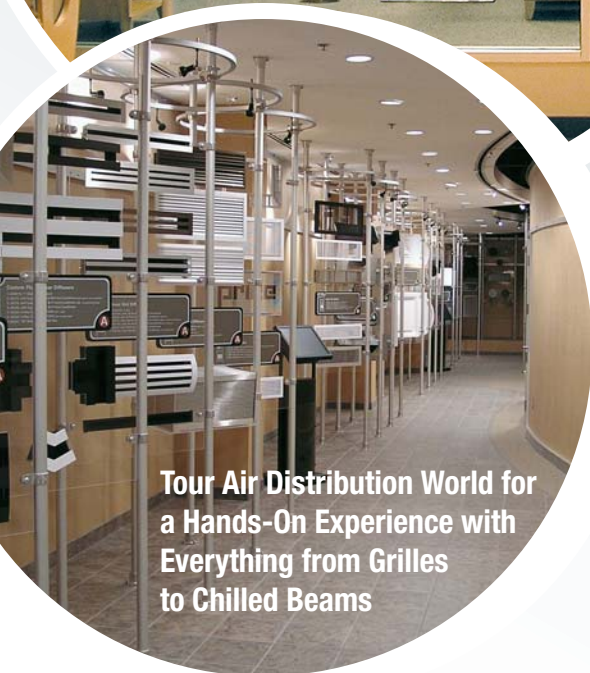

Price has the most extensive product line in the air distribution industry, and the breadth of expertise and experience to address your interests and concerns. Price team members include experienced Professional Engineers, with Phd's and LEED AP certifications.

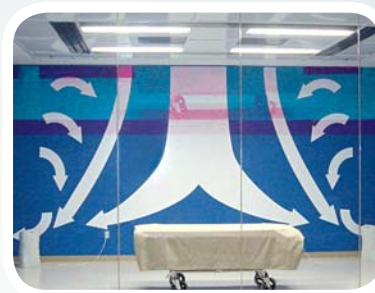

The Most Advanced Training & Research Facilities in North America

Flow Visualization Rooms Demonstrate Air Patterns for a Variety of Products

To schedule a private visit or enroll for a training class, contact your Price Representative or visit us online at www.price-hvac.com.

Tour Air Distribution World for a Hands-On Experience with Everything from Grilles to Chilled Beams

See our Critical Environment Systems in Action

Live Product Demonstrations Illustrate Performance Variations

PRICE TECHNICAL UNIVERSITY

This comprehensive three day program is intended for designers, engineers, contractors and architects. You will receive training ranging from in depth design information and theory, to industry guidelines and product applications. Some of the applications covered in this course include;

- Terminals
- Critical Environments
- Noise Control
- Controls
- Underfloor Air Distribution
- Displacement Ventilation
- Hydronic Systems (Chilled Beams, Sails & Radiant Panels)
- LEED & Sustainable Design

Our Certified / Accredited curriculum provides Continuing Education Credits (CEUs) and Professional Development Hours (PDHs). Contact your Price Representative or visit www.price-hvac.com for more information.

FOCUSED VISITS

During a focused visit, Price works directly with you and your team, addressing relevant interests and concerns so that you can design an exceptional environment.

Owners, facility managers, engineers, architects and contractors all find Focused Visits very beneficial. The agenda for the visit is customized for your specific project needs and applications.

Customized, project or product relevant training & discussion with Price industry and engineering experts

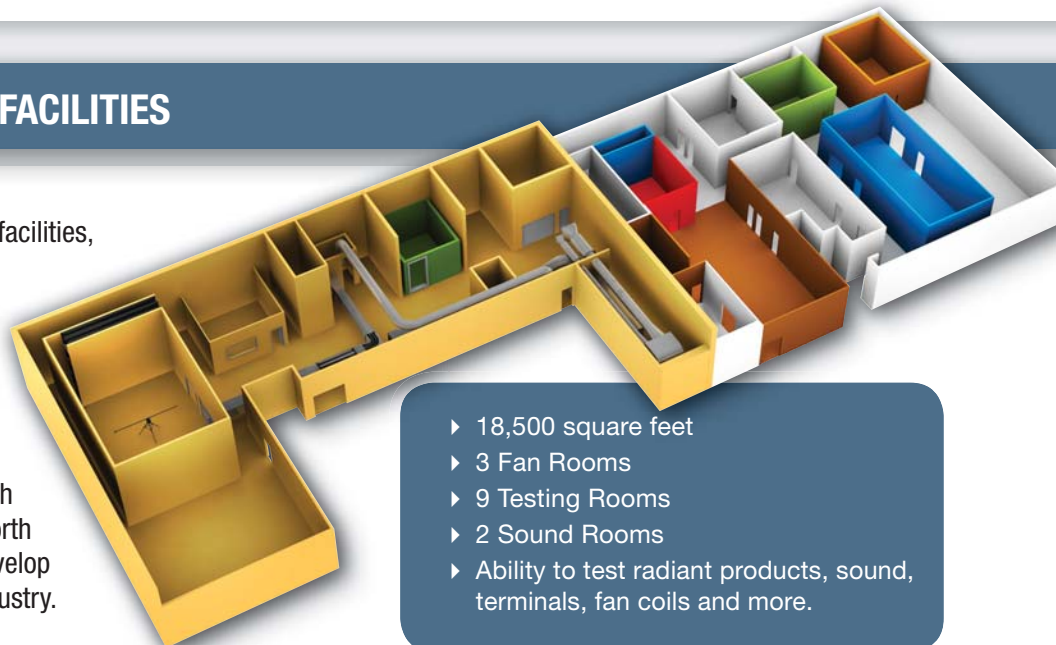

Project mock-ups and testing to help you make critical design choices

PRICE LABS & RESEARCH FACILITIES

Price has extensive lab and research facilities, and can conduct project mock-ups and testing for your benefit at the Price Technical Center in Atlanta, GA and at Price Research Center North in Winnipeg, Canada.

Price Research Center North is the most technologically advanced research and air distribution test lab in the North America, allowing us to test and develop products faster than anyone in the industry.

- ▶ 18,500 square feet
- ▶ 3 Fan Rooms
- ▶ 9 Testing Rooms
- ▶ 2 Sound Rooms
- ▶ Ability to test radiant products, sound, terminals, fan coils and more.
